Summary

Senior Software Engineer with 5+ years of experience building enterprise web applications using React, Next.js, Node.js, TypeScript, GraphQL, and micro-frontend architecture. Led a 6-developer team and collaborated with 50+ engineers across a 9-MFE platform supporting 10,000+ users.

Skills

- **Frontend:** React, Next.js, TypeScript, JavaScript, HTML5, CSS, Redux, Vite, Tailwind, Jest, React Testing Library
- **Frontend Architecture:** Micro-Frontends, SSR, Webpack Module Federation, WCAG
- **API & Backend:** Node.js, Express.js, GraphQL, REST APIs, PostgreSQL, MongoDB
- **DevOps & Observability:** GitHub Actions, Docker, Grafana Faro, SonarQube, Veracode
- **Enterprise Integrations:** DocuSign, ServiceNow, MSAL, Azure Data Factory
- **Additional:** Git, Codex, Copilot, AI Integrations

Experience

Senior Developer, UST Global - Canada (Full Time) **July 2023 - April 2026**

- Led development of the Albertsons Partner Portal, owning the Shell Application and Partner/Vendor micro-frontend within a 9-MFE platform.
- Built core features including user onboarding, notifications, announcements, case management, and a ServiceNow-backed Help Center.
- Implemented dynamic MFE onboarding and runtime loading, built GraphQL middleware, and integrated ServiceNow, Power BI Embedded, DocuSign, and Google Vertex AI APIs.
- Led a 6-developer team through code reviews, technical planning, and design discussions while mentoring developers and collaborating with architects and 50+ engineers.
- Maintained 85%+ automated test coverage, supported biweekly releases and CI/CD workflows, and resolved complex MSAL/SSO and other production issues.

Frontend Developer, UST - India (Full Time) **February 2021 - July 2023**

- Built enterprise applications for quality inspection, reporting, and warehouse operations using React, TypeScript, Redux, and Material UI.
- Developed reusable UI components, dashboards, forms, and order workflows integrated with backend APIs.
- Built Azure Data Factory workflows for Oracle-to-Azure SQL data synchronization.
- Contributed to automated testing with Jest/RTL. Supported CI/CD pipelines using Jenkins and Spinnaker.

Full-Stack Developer, Freelance **April 2019 - January 2021**

- Built web applications, HTML5 games, and Facebook Instant Games using JavaScript, React, Next.js, and PHP; deployed and hosted applications on Linux VPS environments.

Projects

Surrey Happy Hour 🚀 | Menu & Happy-Hour Search Platform

Built a Next.js/PostgreSQL platform comparing 2,300+ menu items across 100+ Surrey restaurants by price and happy-hour availability.

UnSigned 🚀 | Anonymous Messaging Platform

Built an anonymous messaging platform with a customizable admin dashboard, user management, moderation, and multilingual support.

Education

Bachelor of Technology in Computer Science and Engineering **August 2016 - July 2020**

APJ Abdul Kalam Technological University, Kerala, India
